### Povzetek

Dijaški domovi so del šolskega sistema. V skladu z zakonodajo morajo vzgojitelji voditi predpisano domsko dokumentacijo, katere obvezni del je tudi dnevnik vzgojne skupine. Po vzpostavitvi sodobnih informacijskih sistemov v dijaških domovih so nekateri vzgojitelji izrazili željo, da bi bilo mogoče tudi dnevnik vzgojne skupine voditi s pomočjo računalnika. V članku je predstavljena predpisana vsebina dnevnika vzgojne skupine ter slabosti uporabe dnevnika v obliki knjige. V nadaljevanju je opisana elektronska oblika dnevnika vzgojne skupine in prednosti njene uporabe. S pomočjo ankete, izvedene med strokovnimi delavci dijaškega doma, sem preveril pripravljenost za uporabo elektronske oblike dnevnika, predstavljena pa so tudi mnenja tako njegovih zagovornikov kot tudi nasprotnikov.

### Abstract

Boarding schools are part of school system. In accordance with the law, educators must keep prescribed documentations by boarding schools and must also lead a diary of educational group as part of pedagogical documentation. When up-to-date information systems were established in boarding school, some educators expressed wish to have the possibility to lead a diary of educational group on a computer. Presented was the prescribed content of a diary of educational group and downsides of keeping a diary in a shape of a book. Later on an electronic form of a diary of educational group and advantages of its use are described. With the help of survey executed within educators of boarding school, I checked preparedness for use of the electronic form of a diary. Opinions of supporters and opponents of an electronic diary are presented as well.
